BUSINESS FELL

LESS ACTIVITY ON NEW YORK STOCK EXCHANGE YESTERDAY.

Dealings Well Distributed Among the Shares-Local Markets Helped by the Fair.

At New York yesterday money on call was easy at 1162 per cent.; closed, 11/2; last loan, 11/4.

Prime mercantile paper, 465 per cent. Sterling exchange dull, with actual business in bankers' bills at \$4.88% for demand and \$4.88% for sixty days; posted rates, \$4.89 and \$4.90 and \$4.90 and \$4.91; commercial bills, \$4.871/2@4.88. Silver certificates, 67@671/4c; bar silver,

66%c: Mexican dollars, 53%c. Total sales of stocks were 29,500 shares, including the following: American Sugar, 30,300; American Tobacco, 7,300; Atchison, third assessment paid, 10,900; Burlington 25,900; Chicago Gas. 29,200; Distilling, 6,800; Missouri Pacific, 10,100; New Jersey Central, 3,200; Pacific Mail, 19,800; Reading, 7,200; Rock Island, 15,100; St. Paul, 31,403; silver certificates, 10,000; Southern railroad preferred, 3,400; Tennessee Coal and Iron, 15,-

200; Wabash preferred, 5,200. The stock market yesterday showed a falling off in the volume of business of fully one-half as compared with that of the previous day. The movement of prices was also considerably less erratic, but the dealings were relatively as well distributed as on Monday. While the professional traders were responsible for most of the fluctuations, a fair amount of actual buying was noted. Opening prices were favorably affected by general fractional advances in the London prices of the international shares. The abatement of activity was due to the comparative absence of disquieting reports and rumors, and to the moderate engagements of gold for export. The withdrawals from the subtreasury for this purpose were about balanced by the amount of deposits by scattered banks. The currency transfers for shipment to the interior exceeded \$400,000. Influences bearing to a certain extent on the trading included a decline in sterling exchange rates and a drop of about 1 per cent. in the rates for call money from the highest figures of the preceding day. Further advances in the prices of foreign and domestic sugars were reported, and the anthracite coalers responded to the improving tendency of the trade as evidenced by the advances in anthracite ings were relatively as well distributed as ed to the improving tendency of the trade as evidenced by the advances in anthracite prices at tide water, following the recent advances made by the Philadelphia companies. The improving tendency of stock prices at the outset was soon checked by a drive against the grangers, that group receding 1,212 per cent., the last in Rock Island. The weakness soon communicated to the general market, although to a lesser extent. The more important other declines were in the industrials. The reactionary movement was checked soon after 11 o'clock under brisk buying for both accounts, the entire list advancing. The gains scored were material and pretty general. Chicago Gas and Eric Telegraph rose 3 per cent.; Sugar, 1%; Flint & Pere Marquette preferred. 2; Atchison preferred, when issued, 1%; Missouri Pacific and Pacific Mail, 1%; Minneapolis & St. Louis second preferred

1%; Missouri Pacific and Pacific Mail, 1%; Minneapolis & St. Louis second preferred and Manhattan, 1%; Canada Southern, 1%; Lead, C., C., C. & St. L., Cotton Oil, Tennessee Coal and Lake Erie & Western, 1%, and General Electric 1%. The grangers rose 1@1%, the coalers 1@3% (not a single transaction being made, however, in Lackawanna), the last in New Jersey Central. In the last hour the advance was retarded by sales to take profits, in which Jersey Central receded 1%. Lead 1% and the general market fractionally. The speculation left off weak in tone, but with prices, as a rule, shove the final transactions of the previous day. There was some irregularity in the bond peculation, and it was not until well in he late session that the dealings assumed the late session that the dealings assumed decided tone. Prices then began to trend loward, and the closing was strong. The sales were \$1.814,000. The principal changes are: Advances—St. Louis and Cairo fours, the per cent.; Iron Mountain seconds, 44; Belleville & Southern Illinois firsts, Chicago & Erie incomes, Missouri, Kansas & Eastern firsts and Chicago, St. Louis and Paduah firsts, 2; Cordage first trust receipts, 24; Cordage consel fires, 24; Cordage trust receipts, 1; Atchica fours, trust receipts, and Reading fours, 14 per cent. Declines fort Worth & Denver City firsts, 4; Pittsburg & Western firsts and Greenbay incomes, 14, and Pleasant Valley Coal sixes and Houston & Texas Central consol sixes, 14 per cent.

LOCAL GRAIN AND PRODUCE.

Trade More Active and Prices More Steady than on Monday.

There is a perceptible therease in trade this week and a decided improvement in siness is looked for. In prices there were but a few changes. The hide market flat and prices weak. Leather market ctive and prices stronger. Everything in ron and steel is advancing and dealers in tinners' supplies report trade active and prices strong. Dry goods houses had a busy day. The advancing tendency with some lines has been checked somewhat temporarily. Wholesale grocers are busy. All staple articles are firm at quotations and further advances in sugars are looked for. The canned goods market has not

taken shape to predict prices. On commis-sion row to-day trade is better than last week, but still room for improvement. Prices range much the same as last week, varying with the volume of receipts and demand for fruits and vegetables. Mercer & Co. Bidding Lowest. The Board of Works yesterday let the contract for cementing the south sidewalk of Washington street, from State avenue to Rural street, at \$1.10 a foot, to Dunn & Mankedick. The walk will be eight feet wide. Other bids were from \$1.11 to \$1.19. The contract for a local sewer in Capitol avenue, from Fall creek to Thirtieth street, was deferred on account of the lowest bid being made by W. R. Mercer & Co. This bid was \$4.47 a foot. The next lowest bid, \$4.75, was submitted by Browder & Shover. Other bids ranged as high as \$5.31. Some time ago when the contract for the White river interceptor was to be let Mercer & Co. submitted the lowest bid. The board was not satisfied with the manner in which Mercer & Co. has been in ner in which Mercer & Co. has been in the habit of doing work and refused to award the contract to that firm. There was considerable trouble in getting streets placed in the proper condition after work was done. While the board has not decided that it will give no more contracts to this firm it is not entirely satisfied and deferred its decision until a later day.

> RUMOR OF BIG GOLD DEPOSIT BY SYNDICATE DID THE TRICK.

At Chicago Wheat Gained 1-2c, with Cora and Oats a Fraction Up-Provisions Advanced.

CHICAGO, Sept. 17.-Smaller world shipments and rumors of a heavy gold deposit by the bond syndicate sent wheat up again to-day, December closing 4c higher. Corn for May gained %c, and May oats 4c. Provisions made slight advances. Wheat, after selling off 1/2c in the early dealings, made a sharp rush upward and held much of the advance. The continued big deliveries in the Northwest had a depressing effect early and there was a disposition to let go of long stuff and short the market. But Liverpool cables were strong, domestic markets improved and St. Louis showed especial strength. New York was a good buyer and the world's shipments last week were less than 6,000,000 bu, or 1,500,000 bu below the estimated weekly consumption. It was also reported that the bond syndicate was about to deposit \$10,000,000 to make good the gold reserve, and this had a tendency to create confidence and stimulate speculative buying, while the offerings gradually grew less and the competition among buyers sharper, the advance being the result. The difficulty experienced in buying cash wheat was also a factor, or so it was said that there was a very sharp demand for it, but buyers could not get it, although they expressed their willingness to pay December prices for choice spring. With such an array of encouraging conditions the trade soon forgot all the bear lessons it has learned for the past week and for a considerable time the bull fever was dominant and infected the whole crowd. December sold at 57% c early, then began to improve and sold up with slight reactions to 59% c, eased off to 59c, and at noon was 58% c. Price changes during the last half hour were not important and the feeling was weaker. December sold to 58% c, closing at 58% c bid. ing, while the offerings gradually grew less ing at 58%c bid.
Corn was in good demand for the near futures and prices had a marked advance. The damp weather was the most impor-tant element in the strength. May, from 28%c to 29c at the start, rose to 29%c, and

at 21c bid.

Provisions—Bulls shared in the general prosperity to a trifling extent, although the liquidation of October contracts was still a feature of the day's business. Rumors of the spread of the hog cholera were rife, but generally considered exaggerations. Easier prices ruled for a few minutes at the start, but soon gave way to more firmness, and when corn became so distinctly firm the hog products followed suit. October pork closed 10c and January 7½c higher for the day. October and January 12c higher for the day. October ribs declined .62½c, and January improved .05c.

an Francisco Chronicle. We have in the United States a sufficiency of loose-tongued and limber-jawed blatherskites and would-be orators, who have panaceas of their own for every political evil that exists, without importing such men as Hardie. He was a complete political accident as a member of Parliament, possessing not even the confidence of his own constituents and being jeared and own constituents, and being jeered and laughed at by everybody else. Why, if we have Coxeys and Carl Brownes of our own, should we be afflicted with Keir Hardies?
